

JOHNSON'S CREEK

#REDNECKROCKNROLL

Combine high energy country rock with classic country standards and mix a growing catalogue of original material and you have the ingredients for a potent four-piece ensemble from Southern Ontario named Johnson's Creek.

Featuring Glenn Code (lead vocalist/guitars), Michael Lanteigne (lead guitar/backing vocals), Mike Crombez (bass guitar/backing vocals) and Jake Adams (drums/backing vocals), Johnson's Creek have been building a strong reputation for themselves since arriving on the scene in the summer of 2017 with the release of their debut single "Ocean Fantasy". Since that point, Johnson's Creek released a self-titled, six-single EP in the Fall of 2019 which triggered strong airplay for their anthemic single "I Like It Dirty" which earned them key bookings with major concerts such as the 2018 Stars And Thunder Festival in Timmins, Mattawa Voyageur Days, back to back years at Rogers Hometown Hockey and numerous gigs throughout Northern and Southern Ontario.

2022 proved big for the band with the release of 2 singles, "Burn It Up" and "Tell Me Something Good" and notching 40+ performances throughout Canada including dates at the Famed Cavendish Beach Music Festival in PEI, the Winkler Harvest Festival in Manitoba 4 dates at The Canadian National Exhibition and a headlining spot Toronto's Legendary Horseshoe Tavern.

Whether it's projecting their high-energy 'Redneck Rock n Roll', inspired by the likes of The Road Hammers and The Georgia Satellites or more classic standards influenced by Johnny Cash, Merle Haggard and Hank Williams, Johnson's Creek has the unique ability to appeal to a wide variety of country music demographics.

Country Thunder Public Relations Chief, Gerry Krochak took one listen to Johnson's Creek's debut EP and instantly booked the band to play three nights at last year's prestigious Calgary Country Thunder Festival including headlining the opening night party at the legendary Ranchman's Club venue.

Johnson's Creek performed at the high-profile Cavendish Beach Country Music Festival warming the crowd up for headliner Luke Combs. Johnson's Creek did manage to present high-spirited, headlining appearances to limited capacity audiences for festivals in Sundridge, Bradford, Aurora and Sauble Beach, throughout Covid, along with The Horseshoe Tavern prior to the pandemic closing down the music industry globally. The band has since repeated their performance at The Horseshoe Tavern.

Johnson's Creek have used their down time during the pandemic to pen a number of new tracks scheduled for release in 2023. To book this crowd-pleasing, high energy Country Rock Band, please contact:
